## WETASKIWIN JURY RETURNS VERDICT OF INSANITY

W. E. Brock, Charged with the Murder of J. B. Shockey  
in April Last, was Tried on Wednesday

The trial of Wm. Brock on a charge of murdering J. B. Shockey took place at Wetaskiwin on Wednesday morning before Judge Harvey and a jury composed of Messrs. J. R. Schantz, G. W. Wells, Ed. Helm, E. C. Roper, Aug. Genz and R. B. Price.

The Times says: The first witness examined was Walter Medbury, who swore that on April 9th Mrs. Medbury and myself called for Mrs. Brock to go to the Salvation army. As we all walked along we overtook J. B. Shockey opposite fire hall. At the stairway of the new bank building Mr. Brock rushed up behind Mrs. Brock and myself and shot Shockey, at the same time saying "you will, you will; you will, you will." Brock shot before I could grab him, and Shockey started to run. Brock shot again, when Shockey threw up his hands and fell. Brock wrenched away from us and shot again while Shockey was lying on his face. A small revolver was used.

Cross examined by Mr. Burgess the witness said he had seen Shockey about three weeks before the shooting. Shockey told him that he had a fight with a man the night before and might have to have another fight that night.

Mrs. Medbury, sworn, said: Was at Brock's house about 8 o'clock on way to Army, overtook Shockey and he and I walked ahead. At the stairway of the new bank I heard a shot and the words "you will, you will." I looked around and saw gun in Brock's hand. Ran a short distance, then looked back and saw Brock standing over Shockey and heard him shout. Did not go near Shockey afterwards.

Cross-examined by Mr. Nolan, witness said Mrs. Brock was her aunt, was not well acquainted with Mrs. Brock until this spring, did not know anything about Shockey but had met him before. Just as Shockey was

telling about the fighting Brock came up behind. Sure I heard three shots. Mr. Medbury and myself went to barracks and called out the brothers and then went home.

Ed. Nunnally, sworn, said: At about 7:30 on April 9th as I was in front of the Queen's Hotel I heard a shot and a scream. Mrs. Brock rushed around the corner again but again she rushed back and grabbed me by the arm and said "catch Mr. Brock; he's killed a man." I went around the corner and found a man lying about three feet from sidewalk. I put my arms around him and he looked up at me, but said nothing. I sent boy for Sgt. Phillips and went for Dr. myself. Saw Brock about ten minutes after shooting at his house; went with Sgt. Phillips. Brock said he did not know what he was wanted for.

Cross-examined by Mr. Nolan, said he came here in 1894 as a policeman. Think Brock and wife came here in 1901. Brock appeared quite cool. Think Brock at times is considered insane.

Dr. Robertson, sworn, said he was in his home when shots were heard and came down stairs. Could not feel pulse beating. It being dark went back for light when I found man was dead. Examined next morning as coroner and found bullet hole in ear, one in leg and one in back. The bullet in back entered just below right shoulder blade, passed through the heart and caused instant death.

Etna Brock, son of prisoner, said his father left the house a few minutes after Mr. and Mrs. Medbury and his mother and was away about half an hour. When he came back he kissed me and I asked him if I could sleep with him and he gave his consent.

### THE ALBERTA CROP

Winnipeg Free Press—In talking over with Mr. John McNeely, manager of the Medicine Hat Milling Co. today, your correspondent learned that the acreage under cultivation in this district for wheat would be fully one-third greater this year than last. The grain never looked better than at present for this season of the year. Very little of it was drowned out by the rains and although there was some that was somewhat off in color the present warm weather has given a most healthy appearance. What is needed now is sunshine with a little more rain in the course of a couple of three weeks. The harvesting of the wheat will begin about August 15. Rye and barley are looking grand, being from three to four feet in height. A large quantity is being cut now for feed.

Wheat acreage in the Strathcona district has increased probably 20 per cent over last year and oats to a similar amount. The present condition of growing crops here is excellent. There has been abundance of rain yet not too much. Warm sunny weather which now prevails is exactly what the crops in this district require to produce a bumper yield. Considerable damage was done to the wheat by cut worms, especially on summer fallowed ground, before the effective remedy of bran and paris green was put into service by the farmer. It would be difficult to say what percentage of the crop suffered. Oats, which is the chief crop here, was not bothered by this pest to any great extent. The loss is not very great as where wheat fields were oats have been sown on the land to make green fodder for the cattle, so the loss sustained will be small.

Cross-examined by Mr. Nolan, witness said that Shockey had been around the house and did things displeasing to his father.

A. W. Anderson, sworn, said that Brock had been at the fire hall in March.

H. D. Mills, J.P., sworn, said that Brock came to him and wanted Shockey ordered from the house, but we thought we had no power to act.

Cross-examined by Mr. Burgess, the witness stated that Brock had told him that Shockey used to comb Mrs. Brock's hair, and (he Brock) wanted Shockey kept away from the house.

This concluded the evidence for the prosecution. Mrs. Brock was then placed in the box to give evidence in defence of her husband. She swore that she had married Brock 14 years ago. He had been treated for insanity prior to coming to Canada and his mother had died in an insane asylum. He has had several bad fits of insanity since coming to Canada, and had an exceptionally bad one about two years ago when he was taken to Calgary for examination as to his sanity. Was afraid of Brock during these fits, and I asked Shockey to stay in the house against the wishes of Brock on that account. Shockey lived at High River for a time and I corresponded with him. I also loaned him money when he was in need.

Being cross-examined by Mr. Henwood, Mrs. Brock said that her husband was jealous of Shockey.

This concluded the evidence and Mr. Nolan proceeded to address the jury, making an eloquent appeal for the life of the prisoner, who could not have been in his sound mind when he took the life of his fellow man in such a deliberate and cool manner.

Mr. Henwood, crown prosecutor, then addressed the jury, reviewing the evidence in detail, pointing out that the prisoner was a dangerous man to the community, and should not be allowed to remain at large, if the jury could not bring in a verdict of wilful murder.

The judge in charging the jury also reviewed the case in detail, and explained what evidence had been given. The jury after a deliberation of about two hours brought in a verdict of "Not Guilty, through insanity."

### DOINGS IN OTTAWA HOUSE

Opposition Charges Simmer Down to  
a Request for Preston's Transference.

Ottawa, July 3.—Hon. A. B. Aylesworth in the House this forenoon introduced a bill found necessary because of the abolition of the supreme court of the old Northwest Territories, and the creation of two new courts instead. The Dominion act did not touch the provincial act, but merely made the changes necessary for its coming into force.

Mr. Aylesworth asked what would happen to the judges of the supreme court. Mr. Aylesworth said that no mortal could very well say what were the positions of the judges when their court was abolished, but in this instance it was intended to appoint the six judges to the new courts.

Mr. Lake read from a Regina newspaper that H. G. Boberley, who, he said, was concerned in the Prince Albert election case, had been appointed enumerator to take the census. He wanted to know if this was correct.

Mr. Fisher said that he could not tell. The names were so doubtful in the department and he could find out especially on summer fallowed ground, before the effective remedy of bran and paris green was put into service by the farmer. It would be difficult to say what percentage of the crop suffered.

When the House resumed Mr. Piche of St. Mary's, speaking to a question of privileges, reviewed the circumstances connected with the recent meeting against the Sunday bill in Montreal at which Mr. Bourassa attacked the measure. Mr. Piche dealt with the matter in French, making a severe attack on Mr. Bourassa, and represented the whole issue. Mr. Rivet, to Hochelaga, followed, speaking in English. He agreed with all that Mr. Piche said, but said that he had accused his colleagues who supported the bill of being guilty of treason to their compatriots. The member for Labelle said that he would meet them in parliament and say so.

"Now," said Mr. Rivet, "we are here and want to meet him face to face. He accused us of being traitors to the Archbishop, Bruchet, and endeavored to start up the people on race and religious appeals.

Mr. Bourassa replied saying that he would be glad to discuss the matter with Mr. Rivet in Montreal or elsewhere.

In regard to the payment of railway subsidies the following additional condition has been provided for in the way of an amendment moved to-day by Mr. Logan (Cumberland), and adopted: "That the government council may make it a condition of the grant of the subsidies herein provided that the company shall lay its road with new steel rails and fastenings made in Canada and shall purchase all materials and supplies required for the construction of the road and the rolling stock for the first equipment thereof from Canadian producers of such rails, fastenings, materials, supplies and equipment are procurable in Canada of suitable quality and upon terms as favorable as elsewhere, of which the minister of railways and canals shall be the judge." The subsidy bill was then read a third time.

Mr. Monk said that he had received representations from labor associations asking that Mr. Preston should be dismissed. He touched on the North Atlantic Trading Co. and Mr. Preston's refusal to give the names and said that this was another reason why Mr. Preston should be removed from office. There was nothing new in Mr. Monk's speech. It was merely a repetition of what took place before the agriculture and public accounts commission.

Continued on Page 2.

### BYE-ELECTION IN VERMILION

M. McCauley, M.P.P., Resigns to  
Accept Position of Warden of  
Provincial Penitentiary

Mr. M. McCauley, M.P.P. for Vermilion, has resigned his seat in the local legislature to accept the position of warden of the provincial penitentiary in this city.

A writ has been issued for an election to take place in the Vermilion district on Thursday, July 26th. Nominations will take place on Monday, July 16th.

The Liberal convention will be held in Vegreville on Saturday, July 14th, to nominate a candidate to contest the constituency.

The appointment of Mr. McCauley will meet with popular favor in this city and district as he is a gentleman eminently qualified to discharge the duties of his new position.

Mr. McCauley is one of the pioneers of this district and has done as much as any man to advance its interests, both privately and by impartial and fearless public service.

Mr. McCauley was born in Owen Sound, Ontario, and first lived in Winnipeg before coming to the Edmonton district. It was in 1879 he first landed here, having driven all the way from Fort Garry. He lived one year at Fort Saskatchewan and afterwards moved to Edmonton where he was elected the first mayor of the town of Edmonton which position he held for three years. He was instrumental in establishing the first public school when Edmonton was very small, and served on the trustee board for nine years. As a member of the board of trade he was an active and effective champion of the rights and advantage of the city.

For a number of years Mr. McCauley was a member of the late Territorial Legislature during which time he was always regarded as a careful and faithful public man. About four years ago Mr. McCauley removed to his ranch at Toleda and last year was chosen to represent the Vermilion electoral district in the first legislature of Alberta.

**SPECIAL TRAIN TO THE FORT**  
Members of the Masonic order in the city will go to Fort Saskatchewan tomorrow where they will attend service with the Maynooth of the Fort. A special train will run down, leaving the C. N. R. station at 10 a.m. and returning in the evening. The accommodation will not be limited to members of the order and anyone wishing to take in the trip may do so. The return fare is 60c.

**GLENGARRY SCHOOL REPORT**  
Glengarry school examination report. The following are the percentages the different scholars took at the recent examinations.

Class I to IV—  
Lena Borle, 84.  
Johann McGillis, 85.  
Jack McRae, 83.  
Class III to IV—  
Lena Borle, 84.  
Mullan McGillis, 82.  
Mabel McGillis, 88.  
Fermien Borle, 71.  
Class II—  
Julia Borle, 89.  
Cecil Borle, 86.  
Annie Belanger, 77.  
Jessie McDonald, 69.  
Angus McGillis, 61.  
Willie Quimette, 58.  
Alex. McDonald, 57.  
Jesse McRae, 48.

## JOHANNESBURG PANIC STRICKEN THROUGH FEAR OF UPRISING

Disaffection Spreads Among the Blacks and the White  
Residents are taking Precautionary Measures Everywhere Throughout the Colony

Johannesburg, Vaal River Colony, July 6.—Inhabitants throughout the Transvaal and especially in this city are panic stricken over fear of a Kaffir uprising. The signs of disaffection, long apparent are growing daily more manifest and a revolt is imminent.

Lawlessness among the blacks is increasing daily despite the active military campaign that has been instituted to quell the rebellious spirit.

The white inhabitants everywhere are barricading their homes and arming themselves to resist attack from the natives.

The whites in the villages are also laying in a stock of provisions in case the natives should besiege them. Women are afraid to venture out after dark as already a number have been brutally maltreated.

While the police and military have been unable to check the movement several of the instigators have been captured and will be summarily dealt with as a warning to the turbulent spirits.

### COLLEGE MAN SHOT.

(Special to the Bulletin)  
Knoxville, Tenn., July 6.—Sam Parker, college athlete was shot an fatally wounded when he alighted from a train by Judge J. B. Fulton. The cause of the tragedy was jealousy over a woman.

### ETE FILLED WITH GLASS.

St. John, July 6.—Robert Fleming, a

### WINNIPEG FLAG INCIDENT.

(Special to the Bulletin)  
Winnipeg, July 6.—From comment heard to-day it does not seem likely that the stars and stripes will ever float again from the city hall flag pole. The action of the Canadian club executive in taking up the question of responsibility for placing the American flag on the city hall on July 4 has brought about much adverse comment.

### Glory Hill News

Glory Hills, Alberta, July 3.—Mr. Fred Maud opened his new hotel at the Stoney Plain town site on July 2.

Mr. Jess Radcliffe and Edwin Hallett have taken the contract of building Ben Simon's house on his C.P.R. land in this district.

Mr. James Fitzpatrick has gone to his homestead at Sadies Lake, where he intends to build.

Mr. Stainer of St. Louis has bought John Wettlaufer's farm and has erected a new house.

Mr. Thomas Fitzpatrick has gone to Edmonton to the doctor with a scarab.

Mr. Wocaset of Milwaukee is visiting at his brother's in this district.

Miss L. Tidsbury, Mr. and Mrs. P. Yost and family and J. Umbach of Spruce Grove were visiting their Russian friends.

Mr. Fox is going back to Lacrosse, Wisconsin, after having a short visit with his friends in this district.

EDMONTON BULLETIN, SATURDAY, JULY 7, 1906.

Continued From Page One.

Mr. Monk said that Mr. Preston was on bad terms with Griffith and the immigration agents in Britain. Mr. Preston's relations with Lord Strathcona as shown from the high commissioner's recent letters were not and could not be satisfactory. He should not be kept any longer in that office.

Mr. Oliver said that after all the great attack made on the government policy had dwindled down to a demand for the removal of one Preston from office and to give him another position. Mr. Oliver admitted that some improvement was necessary, and that the House might very well expect that the matter would be looked carefully into. But to say that Preston should be dismissed on one-sided evidence was not reasonable.

Mr. Brockle-What does the minister mean by one-sided evidence? Mr. Oliver—Mr. Preston was not permitted to give any evidence in rebuttal. The minister is not looking and showing that Mr. Leopold conducted the farmers' auxiliary and through it sent agriculturalists to Canada. Mr. Preston had a right to look into that.

Mr. Monk—But that was shown by the Ennis letters. Mr. Oliver said that these letters were stolen and would not be accepted in any court as evidence against any man.

Mr. Monk said that they were taken when Mr. Ennis was not looking and not present. (Laughter.) The minister said that as Mr. Preston was instrumental in sending through the North Atlantic Trading Co. so many settlers to the northwest, in this way he created a great market for the product of skilled labor, and for which he was now asked to be dismissed. The minister said that he was not prepared to offer any evidence in rebuttal. The minister said that as Mr. Preston was instrumental in sending through the North Atlantic Trading Co. so many settlers to the northwest, in this way he created a great market for the product of skilled labor, and for which he was now asked to be dismissed.

This debate was continued by Messrs. Macdonald, Gurney, Hume, and Verville. Mr. Verville said that he was in favor of dismissing Mr. Preston, but he would not vote for the amendment, because he would give an opportunity to the Government to investigate and settle the matter.

Mr. Johnston (Cape Breton) said that the Canadian Manufacturers' association did not deserve any consideration in future. His own constituents that they required 11,000. The friends of the Manufacturers' association were now asking for the dismissal of Mr. Preston for doing that which Mr. Johnston was in favor of seeing justice done in the matter and he looked to the minister of the Interior to carry out the pledge he gave tonight, and which he also gave when the immigration committee was under discussion. Mr. Bergeron followed and Mr. Campbell replied.

The House divided on the amendment of Mr. Monk. The vote was 29 for and 89 against, a majority of 50 for the government. A bill regarding the Montreal harbor was passed through committee and reported.

The house then adjourned. The bill permitting the government to accept railway stocks and bonds, quoted in the money market above, was held by the government from 1900. The bill was passed through committee and reported.

Mr. Sinclair's bill respecting the order and was proceeded with in committee. This bill is for regulating the deck load of ships. A similar bill is before the Imperial Parliament. The bill was passed through committee and read a third time.

There are likely to be some more important amendments to the Sunday Observance bill. It is reported tonight that some further exemptions will be made in favor of the provinces. The bill is to leave to the provinces to legislate upon that which is strictly within their powers and for the Dominion to enact that which comes within its jurisdiction.

For instance there is the question of transportation which the Dominion does not deal with in a bill of this kind. The outlook tonight is that nearly all the opposition to the bill, with the exception of Mr. Bourassa, has been removed.

**TENDERS FOR THE ERECTION OF NORMAL SCHOOL BUILDING, CALGARY, ALBERTA.**

Sealed tenders addressed to the Deputy Minister of Public Works, Edmonton, Alberta, and endorsed "Tenders for Normal School Building, Calgary" will be received up to 12 noon, July 16th, for the supplying of all materials and the erection of Normal School Building in accordance with plans and specifications on view in the Department of Public Works, Edmonton, and at the office of the Inspector of Public Works, Armstrong Block, Calgary. The work may be tendered for separately or in bulk for all trades excepting plumbing, heating and ventilation, tenders for which will be called later. Each tenderer must be accompanied by an accepted cheque payable to the Minister of Public Works, for the amount of 5 per cent of tender. Cheque of the successful bidder, if any, will be retained until the necessary contract and bond are executed and the work completed. The cheques of unsuccessful bidders will be promptly returned. The right is reserved to reject any or all bids or waive any defects.

**LOCAL.**

Two new cafe cars, the Okanagan and the Skogan, are being put on the C. & E. run. They are mahogany finish with all the appointments of a modern palatial dining car.

Mr. J. H. McInnis, drug merchant of Regina, is in town today. He has invested considerable in real estate. He is on his way to the coast.

Walter S. McInnis of the Regina Standard was a caller at the Bulletin office today. Mr. McInnis is on a holiday jaunt through the west.

Mrs. Stewart arrived from the east yesterday on a visit to her daughter, Mrs. H. B. Macmahon.

T. S. Williamson, wholesale produce and commission merchant, Montreal, is building a warehouse on Queen's avenue opposite the market place.

J. N. Greves, immigration agent at Spokane, Wash., was a visitor to the fair. On returning he took the oats shown by T. Daly at the fair here to show the people of Washington what can be done along this line in Alberta.

The Minister of Public Works is calling for tenders for the erection of a Normal School in Calgary. Notice of the same will be found in the advertising columns.

Mr. Vernon Barford's pupils give their closing recital on Monday and Tuesday of next week. There will be three recitals, the junior on Monday afternoon at half-past three, the intermediate on Monday evening at a quarter to nine, and the senior recital on Tuesday evening at a quarter to nine. These recitals, which are held in the All Saint's school room, are open to any who are interested in music, no vibrations being sent out.

W. P. Price of Coal Lake had an exciting five minutes this morning. His team became frightened in front of Rayner's jewelry store. Mr. Price called for everyone to clear the track and he could control the frightened animals. They ran up to the corner of Jasper and McDougall, when Mr. Price turned them south and finally into the alleyway where they stopped.

**AMENDMENT TO SUNDAY OBSERVANCE BILL**

(Special to The Bulletin.)

Ottawa, Ont., July 6.—The Sunday Observance bill, was before the House of Commons today all day. There was not much more harmony in the debate than there has been throughout. Liberals were voting against Liberals and Conservatives against Conservatives; but there was no bitter attack on the measure except from Bourassa. Indeed, nearly every member said that he was a friend of the principle of the bill although the opposition was taking all the advantage it could of making the position of the government as difficult as it was possible for them to do. Ross, of Yale and Cariboo, secured an amendment which permitted the preservation of property such as from frost or fire by doing any unavoidable work on Sunday. Ross also got another amendment which left those who only worked eight hours not to be subject to the clause which gave 24 hours rest to those who worked on Sunday. The 24 hour rest clause was extended to telegraph and telephone operators. These were all the amendments today. One clause prohibiting golf clubs playing golf on Sundays was added in committee, but afterwards knocked out. The principle of the bill is that it will not interfere with amusements unless played for gain. The bill was read a third time.

**CROPS ALONG C.P.R. LINE**

The following report has been given out by the C.P.R. with regard to crop conditions on the western division, for the week ending July 3rd.

Albion—Grain about seven inches high. Slight damage from cut-worms and hail in a few fields.

Crossfield—Crops looking well. Canola—Crops doing well. Outlook very favorable.

Didsbury—Crops making excellent progress.

Olds—Crops doing splendidly. Bowden—Spring grain and Fall wheat making rapid progress and showing up well. Prospects excellent for good crop.

Penhold—Average height of grain eight inches.

Red Deer—Crops looking very well. Blackfalds—Fall wheat about eight inches high and looking fine.

Lacombe—Crops in first class condition.

Ponoka—All crops doing very well. Prospects very promising.

Wetaskiwin—Crop conditions the most favorable ever known in this district.

Leduc—Crops all in good condition and about one foot high.

Strathcona—Crops all looking fine except on some ground that was not worked last year. Some damage by cut worms reported. Average height of grain, wheat and oats, eighteen to twenty inches; rye two to three feet and over.

Statler—Grain about fifteen inches high and looking fine.

Camrose—Grain all up well and headed out. Prospects very good for a heavy crop.

Dayland—Grain growing rapidly; average height seventeen inches.

Okotoks—All grain growing splendidly, average height about nine inches, some of the earlier varieties of barley heading out. Weather favorable for rapid growth.

Clareholm—Crops looking fine and present weather conditions just what required after recent rainy spell.

Cowley—All crops doing well.

**SOCIAL AND PERSONAL**

Dr. C. J. Reid leaves for Banff to-day, accompanied by Mrs. Reid, to attend the Alberta Dental Convention.

Miss McArthur, who has been spending winter in California, is in the city for a few weeks, before returning to Ontario.

**NEW BUSINESS FIRM.**

Mr. Sam J. Gorman of Chicago has just arrived in Edmonton, where in company with Mr. Stephen A. Clancy of Winnipeg, he will open an office for the sale of builders' supplies and material of all kinds, direct from the manufacturers. Mr. Gorman's family, consisting of his wife and seven children, will arrive in Edmonton in time for the fall term. Mr. Clancy, the other member of the new firm, will arrive in Edmonton with his family about the first of August.

**SUPPLEMENTARY ESTIMATES**

The following items relating to Alberta and Saskatchewan appear in the supplementary estimates passed by Parliament.

## AMENDMENTS TO THE GRAIN ACT AND GRAIN INSPECTION ACT

Honorable Sidney Fisher, Minister of Agriculture introduced recently in the House of Commons bills to amend the Manitoba grain act of 1900 and the grain inspection act, both of which amendments are of vital interest to the farmers of the west.

The amendment to the grain act is to regulate the filling of orders of shippers for cars and to assure to all shippers an equal right to the cars available. The amending bill reads:—

1 Section 59 of the Manitoba Grain Act, as enacted by section 21 of chapter 33 of the statutes of 1903, is repealed and the following is substituted therefor:—

"59 If there is failure at any shipping point to fill all car orders as aforesaid the following provisions shall apply to the application for, and the distribution of, cars:—  
(a) Beginning at the top of the order book and proceeding downwards to the last name entered on the list, each applicant shall receive one car as quickly as cars can be supplied.  
(b) When an applicant has loaded or cancelled a car allotted to him he may, if he requires another car, become eligible therefor by placing his name together with the section, township and range in which he resides at the bottom of the list; and when the second car has been allotted to him and he has loaded or cancelled it, he may again write his name, together with the section, township, and range in which he resides or otherwise designate his residence at the bottom of the list; and so on, until his requirements have been filled.  
(c) No applicant shall have more than one unfilled order on the order book at any one time."

2 Section 61 of the Manitoba Grain Act, 1900, as enacted by section 21 of chapter 33 of the statutes of 1903, is repealed.

This provision should be particularly beneficial when there is a shortage of cars at a shipping point and was doubtless designed to prevent a few shippers from corraling all the available cars at such a time by prior entries for a large number of cars. Under these clauses applicants are to receive one car each as soon as these are available to prevent large shippers capturing the whole supply of cars and crowding out later applicants. It is provided that no applicant shall have more than one unfilled order on the book at any one time.

The bill to amend the Grain Inspection Act reads as follows:—  
1 Section 58 of the Grain Inspection Act, chapter 15 of the statutes of 1904 is repealed and the following is substituted therefor:—

"58 Every such weighmaster or assistant shall give upon demand to any person having weighing done by him, a certificate under his hand, showing the amount of weighing, the number of each car or cargo weighed, the initial of the car, the place where weighed, the date of weighing and the contents of the car or cargo, and such certificate shall be, in all cases, prima facie evidence of the facts therein set forth.

2 An extract from the record kept by any weighmaster or assistant in pursuance of the next following section of this Act, certified by the chief inspector or the chief weighmaster of the division, or by any officer in the office of either of them, shall be prima facie evidence of the facts set forth in such extract."

2 Section 58 of the said Act is amended by inserting at the end of the definitions of the grades of winter wheat the following:—  
"No. 1 Alberta red winter wheat shall be hard pure red winter wheat, sound and clean, weighing not less than 62 pounds to the bushel."

"No. 2 Alberta red winter wheat shall be hard pure winter wheat, sound and clean, weighing not less than 60 pounds to the bushel."

"No. 3 Alberta red winter wheat shall be included hard red winter wheat not clean enough, nor sound enough to be graded No. 2, weighing not less than 57 pounds to the bushel."

3 Section 59 of the said Act is amended by striking out the paragraph defining Extra Manitoba hard wheat, and also by striking out the word "plump" in the paragraph defining No. 1 Manitoba hard wheat.

4 Subsections 7 and 8 of section 91 of the said Act are repealed and the following are substituted therefor:—

"7 Appeals from the grading of such grain by inspecting officers may be made to the grain survey board, as provided for in the case of Canadian Grain."

"8 The provisions of section 96 of this Act shall apply to such grain. The particular interest of this bill to Alberta farmers is the establishment of an individual set of standards for Alberta red winter wheat. The rapid extension of winter wheat farming has resulted already in the development of a variety sufficiently distinct to have earned the commercial name of "Alberta Red". Heretofore, however, this wheat had no official distinction from other winter wheat and was graded according to the standards set for other varieties. The new bill recognizes the new variety of "Alberta Red" and fixes the standards by which this wheat shall be graded.

This change is of more than nominal value to the winter wheat growing industry of Alberta. It guarantees to the grower that his wheat will not be judged by standards for other varieties of wheat—standards which might not be suitable under all circumstances; while by recognizing the difference between "Alberta Red" and other varieties and officially sanctioning the use of this appropriate name it provides that Alberta's winter wheat may win its way in the market of the world on its own merits, bearing its distinctive name and judged by its own standards.

NAVAL RESERVES DROWNED.  
Chicago, July 5.—A crew of Illinois naval reserves while out practising this evening in a launch were caught in a severe squall and five of the men were drowned after the capsizing of the launch.

## Westmount

WILL DOUBLE IN VALUE AT ONCE.

Get in on the ground floor and **BUY NOW.** They are A 1 buying anyway.

Why go out from two to five miles from the city limits when you can get beautiful large lots touching the limits at a very little larger outlay? Property close in will increase in value much more rapidly.

Large lots \$100.00 up. 1-3 cash, balance in one and two years 7 per cent.

10 per cent. discount to purchasers of half a block.

Don't delay. Act quickly. Ask your regular dealer about Westmount, or consult the owners

The GREAT WEST LAND CO., Limited

### Revolution Grows

#### In the Army

Peasants Demand More Wages for Harvesting Crop. Foreign Loan For Famine Relief

The London Times' correspondent at St. Petersburg cables as follows:— Revolutionary tendencies in the army are fast growing. Today's news bears testimony to this. From Kronstadt comes a report that the quiet there is misleading. It is said that guardsmen brought there to quell the expected mutiny fraternized with the garrison, and were hurriedly sent back to Tsarkoe Selo. The sailors told the guards that if they fired on the mutineers a warship would bombard the town. The first battalion of the Prochazhensky Regiment, on guard duty at Peterhof, assembled under arms, and passed a resolution supporting the toll party in the Duma. The authorities did not venture to resort to stern measures, but merely transferred the battalion to Tsarkoe Selo. Another battalion belonging to the Semenovskiy Guards did not reply to the commanding officer's greeting, and when asked to explain demanded the release of eight comrades from prison.

Monster meetings of workmen and soldiers are reported from Kursk. At Sudzha the Dragoons refused to fire on the peasants, and threatened the rural guards if they attacked the peasants. The Dragoons at Vydikazh bombarded the Officers' Club while advance was progressing and wounded a lady. Two soldiers assaulted General Rzevuskij, commanding the district. A monster meeting of the garrison and inhabitants has resolved to take summary vengeance against the Pogrom. Today's proceedings in the Duma show plainly that even the Cossacks can no longer be relied upon for checking the agrarian movement. This movement threatens to assume a most serious form, namely, an agrarian strike, which is bound to cause far greater havoc than the mere destruction of mansions.

A Deputy, just returned from Tuva, informs me that the peasants of five districts of that province have already struck, and are demanding more than treble the wages for harvesting landed proprietors' crops. The former rate was three roubles per desiatin, and the peasants now want ten roubles. My informant says that the movement is spreading with lightning rapidity. Labor organizations are understood to be averse to a general strike unless the Duma should be dispersed, but they may be unable to check the growing discontent. Workmen carters employed on the Nicholas Railway have struck, and the company today refused to accept goods for Moscow.

#### AT THE CHURCHES TOMORROW

All Saint Anglican, Third street, south.—Rev. H. A. Grey, rector. Services tomorrow as usual, communion service 8:20 a.m.; regular service 11 a.m. and 7 p.m. The rector will conduct the services.

Baptist church, Third street north.—Rev. A. W. McDonald, pastor. Grace church, Methodist, corner Kingston avenue and Sutherland street.—Rev. A. S. Tuttle, pastor. Services tomorrow at 11 a.m. and 7 p.m., the pastor preaching at both services.

McDougall church, Methodist, corner college avenue and First street.—Rev. C. H. Huestis, pastor. Presbyterian, First, corner Jasper avenue and Third street.—Rev. D. G. McQueen, pastor. Q. The pastor will conduct the services tomorrow at 11 a.m. and 7 p.m.

Queens avenue, Presbyterian, corner Queens avenue and Sutherland street.—St. Joachim's, Roman Catholic, Tenth street south. Mass 8 a.m., High Mass 10:30 a.m., evening service 7 p.m.

German Baptist, corner Navajo avenue and Isabella street.—Rev. A. Haggar, pastor. The pastor preaches tomorrow at 11 a.m. and 7 p.m.

#### GREAT NORTHERN MEN AT BRNDON

(Special to the Bulletin) Brandon July 6.—A special meeting of the city council was held this afternoon to hear and consider concessions asked for by the Great Northern. The council did not like taking the responsibility of dealing with the company without the opinion of the citizens and on that account nothing was done beyond deciding to call a public meeting. The company is ready to go ahead with construction.

#### MARRIED

MACKENZIE-MACKAY.—At Winnipeg, on June 30, by Rev. Dr. Gordon, J. R. Mackenzie of Edmonton, to Miss Hatheren J. Mackay of New Glasgow, Nova Scotia.

### G.T.P. Will Expropriate

Disagreement as to Price with Regard to Belcher Property and Company Issues Notice

The Grand Trunk Pacific Railway Company has issued notice to the owners of the northeast quarter of section 17, township 24, in range 53, west of 4th meridian of their intention to expropriate the property. This is the quarter section known as the Gradon farm, of which 120 acres was owned by Smith and Helliwell, and 40 acres by Mr. Belcher. According to the notice there was some delay in getting the notification to Mr. Belcher of the company's intention to take up the option and the option technically lapsed, whereupon the owners refused to renew at the old price of \$232.50 per acre, but asked \$600, and declared his intention to sub-divide the 40 acres and sell it in town lots.

The company's notification of their intention to expropriate is apparently intended to head off the sale of city lots on the property. The expropriation notice is for the entire quarter section, notwithstanding that the Belcher property is only 40 acres. The company no doubt figures that by expropriating the entire quarter the Belcher 40 acres would have to be figured at the same price as the Smith and Helliwell 120, and that no exceptional circumstances could be claimed. The Smith and Helliwell people are reported as being willing to settle at the price named in the option, and the expropriation of their property is presumed to be merely a pro forma action.

#### CAUGHT AT LAST

Calgary Herald: T. F. Hutchison, bank teller who was in the employ of the Union bank at Didsbury, and absconded with \$500 of the bank money, has been arrested at Vancouver. When he had fixed his cash up on the night of the robbery he boarded a passing freight and struck south. He had not been heard of since, but the Royal Northwest Mounted Police have been on the scent. When arrested he was working for the Hudson's Bay company at Vancouver under an assumed name. He will reach Calgary tomorrow in charge of an officer.

#### AFTER THE STREET RAILWAY

(Special to the Bulletin) Toronto, July 6.—John Brown, of Toronto Junction, has issued a writ against the street railway company claiming \$400. He claims that Toronto Junction is outside Toronto and as the new Ontario Railway Act prohibits the running of cars on Sunday under a penalty of \$400, it is legally liable to the amount claimed.

#### KILLED BY FALL DOWN STAIRS

(Special to the Bulletin) Belleville, July 6.—W. J. McCammon, a prominent lawyer and society man, was found dead this morning at the bottom of a flight of stairs in the rear of east Robertson block. The deceased's neck was broken and his face was cut and covered with blood. McCammon was about to descend the stairs when he tripped and fell to the bottom.

#### THE NEW ALLIANCE

(Special to the Bulletin) London, July 6.—A Paris wire states that the Echo de Paris has an interview with Sir Wilfrid Laurier, who expressed strong approval of the entente cordiale between Great Britain and France in which he saw, not ephemeral rapprochement, but logical and necessary alliance, which would no longer be broken. Great Britain and France would be at the head of a new civilization in Europe.

#### WINNIPEG GRAIN PRICES

(Special to the Bulletin) Winnipeg, July 6.—No. 1 northern, 50 3-4c; No. 2, 78 3-4c; No. 3, 76 1-4c; No. 2 white oats 33 3-4c; No. 3 barley, 43 1-2c; No. 1 flax 1.07.

#### BIG RACE MEET AT CALGARY

There are more entries for the race meet in connection with the Calgary fair on July 10th, 11th and 12th than for any previous meet in that city. There are ten good events on the program. The entries for the free for all are Edelman, Samuel L., Samuel T., Dessie March, Dacey, Chastnut and Captain John. Every event filled except the Novelty and Calgarians are looking forward to some fast time next week.

James Gibbons, Indian agent for the Edmonton district, will commence on Wednesday next, the 11th, to pay treaty money and take the census of the Indians in his district. There are five reserves altogether, Michel's, Riviere Qui Barre, Lac Ste. Anne, White Lake and Alexis reservations. It is not expected that the census will show any material change in the number of Indian inhabitants of the district. There are about 700 altogether in the five reserves. Each Indian, man, woman and child, receives \$5 treaty money.

### Revenue and Expenditure

Volume of Canada's Financial Business Grows Steadily

Revenue and expenditure Ottawa, July 6.—The statement of revenue and expenditure for the twelve months ending June 30 last shows the revenue to be \$13,006,599, an increase of \$8,531,892 over the previous year. The expenditure was \$14,006,599, an increase of \$3,781,727 over last year. The capital expenditure for the same time increased from \$10,934,322 to \$12,727,867, or nearly two millions. The revenue for the month of June increased by over \$800,000 and the expenditures by about \$400,000.

#### IMMIGRANTS TO COME DIRECT

(Special to the Bulletin) London, July 6.—Because of the British Government's Alien act, a big steamship company is being organized in Finland to convey Finnish and Russian immigrants direct to Canada instead of allowing them to re-embark through England as formerly.

#### MESSAGE OF SYMPATHY

(Special to the Bulletin) Salisbury, July 6.—At the request of Ambassador Whitehead Reid, the American consul at Southampton visited the infirmary here and read Queen Alexandra's message to the Americans who were injured in the railway disaster.

#### POLICE PREVENTED STRIFE

St. Petersburg, July 4.—A point strongly brought out in the parliamentary report on the massacre of Jews at Blackfok is that there was no religious hatred of the Jews among the peaceful Russian population. The fighting was confined to the police, troops and black hundreds on one side and the Jews and revolutionists on the other. The parliamentary commission found overwhelming evidence that the outbreak was deliberately prepared. After the assassination of Chief of Police DerKachoff proclamations were scattered broadcast by the police among the soldiers and the black hundreds charging the Jews with being enemies of the Russian state and responsible for the revolution and styling the lower house the "Jewish Duma." The commission cites proof on every hand that after the rioting was started it was directed by the police and supported by the troops, who fired only at Jews and at Jewish houses. This report does not officially place the blame for the throwing of the original bomb into the procession although it says that several revolver shots were fired and that a bomb was thrown later among the black hundreds accompanying the procession.

**Work Rushing on New Lines**

**C. P. R. Particularly Busy on the New Winnipeg-Edmonton Line**

(Special to the Bulletin.)  
Winnipeg, July 6.—Work on the nineteen new branches which the C. P. R. is constructing throughout the west and also upon the double tracking between Winnipeg and Fort William is proceeding rapidly according to reports at the head office here. Fine weather has allowed the contractors to get to work on the grading and construction with redoubled energy. Thousands of men are being employed, with hundreds of teams. The two lines on which the most energetic work is in progress is on the main line from Winnipeg to Edmonton through Saskatchewan and on the grade reduction work on the through main line at Medicine Hat. Construction on the Edmonton line is going on from Wetaskiwin east, at Saskatoon in both directions and from Strassburg north. At Wetaskiwin J. D. McArthur has 195 teams and 139 men on his contract and Breckenridge & Lund thirty-four teams and 53 men. From Saskatoon west work is proceeding rapidly, there being 330 men at work, while the contractors have started in earnest working east. The Slouton and Weyburn branch, thirty-seven miles in length, is being particularly rushed to have it ready by fall. Eighty-four teams and 125 men are at work.

On the Medicine Hat grade reduction 224 teams with a corresponding number of men and teamsters are at work. On the Golden extension there are 133 men and thirty-five teams working. Construction at Breckenridge has been delayed owing to wet weather. Some difficulty has been experienced at Strassburg owing to the number of men who were at work having gone to their homelands. More men to take their places will be secured immediately. Seventy-two men and twenty-one teams are at work. One hundred and forty-one teams are employed connecting Wolsley and Repton.

**MAY CHANGE COAST TERMINUS.**

Vancouver, B.C., July 6.—It is generally believed that the Canadian Pacific Railway intends to make several important changes in this province in the near future, the most notable of which will be the changing of the Pacific coast terminus from this city to Alberni. The plans are said to provide for large docks at Alberni, or thereabouts, at which the Pacific liners will berth to load and discharge cargoes. From Alberni a railway sixty miles in length will be built across Vancouver Island to some point on the east coast. This point will be made the landing stage for a gulf ferry to transport freight and passengers across to the mainland. Ultimately, it is suggested, the much-talked-of bridge connecting the mainland and Vancouver Island will be built at a cost of \$29,000,000. The C. P. R. officials always strongly support any agitation toward this end. The plans also provide at Alberni for the terminus of the coast runs, principally to northern points and in this way will cut off the tedious trip through the straits and around the end of Vancouver Island before the journey is properly started. There are several advantages for the railway, and not least is the fact that landing of large ocean liners on the west coast of Vancouver Island would do away with the expense incurred on every incoming voyage by passing up the straits and across the gulf. The time for the arrival of the mails from the Orient also would be considerably shortened. Naturally the people of this city are greatly opposed to any plan of the kind owing to the large amount of traffic it would divert from here.

**BIG PATLACH**

Vancouver, B.C., July 6.—The old potlatch at Alert Bay, B.C., has been stopped for awhile, the Indians having

gone off on a few weeks' fishing and then the orgies will be renewed. The first session of this potlatch resulted in twenty-five cases for the police and more will likely follow. The Indian does not hold a potlatch for any other purpose than amusement which differs from the white man's idea of amusement in some respects but in others runs along the same lines. He likes to fill himself full of joy water and occasionally gambles. The Indians break the laws during a potlatch and the police are kept busy. The barter marriages were carried out at this potlatch as usual, the prices of the girls ranging from \$300 to \$1,000 according to their looks. This barter marriage is an Indian custom and is no more reprehensible than white people selling their daughters to titled husbands. Among the Indians, however, it is the girls that have to be paid for. As with white people there are divorces and separations, sanctioned by the tribe but when a wife leaves her husband without cause her father has to return the cash paid for her with interest; if another man takes her, he has to make the payment. The only serious case growing out of the affair is that of Kakunas. Kakunas is an old buck and was able to pay \$1,000 in blankets and other commodities for a woman with four children. He already had one wife and eight children and this came to the ears of the provincial police, and Mr. Kakunas is now in the provincial jail, awaiting his trial on a charge of bigamy. The interesting question will come up at the trial as to the legality of these marriages.

**LABOR SCARCE IN THE WEST.**

Winnipeg, Man., July 6.—Unskilled labor is exceptionally scarce throughout the west and several railroad contractors are seriously hampered for want of men. This scarcity of men is particularly apparent in British Columbia where the Vancouver, Victoria and Eastern R.R. is so scarce of men that it became necessary to send a special agent to Europe to secure sufficient men to carry on the work. All contractors are complaining of the scarcity of labor and in addition the men at work are very independent, well knowing there are dozens of other contractors waiting to receive them with open arms when they throw up or complete the work of one firm. From the Boundary district comes the report that several of the mines are not using all their stamps for want of men, the Ymir mine running only thirty of its forty stamps despite the fact from \$3 to \$4 per day are the wages paid for this kind of labor. It is expected this scarcity of labor will be greatly felt when the crops are ready for harvest because owing to the larger area under cultivation this year more men will be required than ever before and consequently wages will soar higher than they are now.

**EASTERN ATHLETES COMING**

Toronto, July 4.—When Reg Bloomfield left for Edmonton last night, Toronto lost one of its best-known all round athletes. Bloomfield has been transferred by the Dominion Bank to the Western Branch. W. Childs, another member of the canoe club, has been ordered to Edmonton by the Hantzman Company. This will make a great addition to the western sporting world.

**SASKATOON WILL SPEND QUARTER OF A MILLION.**

On Thursday, July 26th, the residents of Saskatoon will be asked to vote a sum not exceeding two hundred and fifty thousand dollars to be devoted to the establishment in the city of a system of waterworks, sewerage and a lighting and power plant. The by-law provides that on the debentures to be issued the rate of interest do not exceed five per cent., payment of the principal to be made by the city in thirty equal instalments. The amount of assessable property in the city is given as \$2,517,145.

## THE GREATEST OPPORTUNITY

\$

The investing public of Edmonton have had placed before them for a considerable time is that of purchasing a block of one of the finest west-end properties ever placed on the market at extremely reasonable prices and on very easy terms.

Frontage on Jasper Ave.

## NORTH JASPER PLACE

Frontage on Jasper Ave.

Is certainly one of the choicest suburban properties lying to the West of the City. Stands beautifully high, commanding an open view of the city and has the advantage of frontage on the recognised, business section, namely, Jasper Avenue. At no distant date this property will be in great demand as a Choice West End Residential Location and with a street car service will prove one of the greatest investments offered this season.

Get in on the Ground Floor

## STOP AND CONSIDER

Get in on the Ground Floor

North Jasper place has been very carefully subdivided by the Dominion Land Surveyors into Blocks, each containing twenty full sized lots of 150 feet x 50 feet. The streets are 66 feet wide and the lanes 16 feet. With the property sub-divided in this manner there will be no trouble in the future about allowances for streets, etc. The same cannot be said of many of the sub-divisions. Our advice is to buy a block, half block or quarter Block of this property, and buy it NOW, as there is nothing like getting in on the ground floor.

## REASONABLE PRICES

EASY TERMS

With the view to giving the small investor an equal opportunity to that generally offered to the man with greater means, we have decided to offer a limited number of quarter and half blocks at the wholesale price. This will be readily appreciated by all who have only a small amount available for investment. We have quoted the very lowest possible figures on this property and from present indications the whole sub-division will be sold within the next thirty days. Prices must be advanced next week.

No Interest  
No Taxes

### To the Pole by Airship

Chicago Journalist Preparing to Make a Trip to the Far North

Public interest in the aeronautic polar expedition of Mr. Walter Wellman, the well-known journalist, is general throughout both Europe and America, says the Winnipeg Free Press. His airship makes an entirely new departure in designing these vessels. It has a lifting power of no less than 10,000 pounds, and as the weight of the vessel with all its equipment is just half of this, there is a margin of four tons for crew and cargo. Heretofore all airships have been built for high speed for short distances, but Mr. Wellman's vessel is designed for moderate speed and a large radius of action. The reason for this is obvious: The journalist-explorer aims to make a voyage from the expeditionary base in Spitzbergen to the North Pole and back—a distance of 1,200 miles—at an estimated speed of twelve miles an hour, or a total return voyage of one hundred hours. This calculation is based on the "proper" speed of the vessel, and does not take into account the influence of winds. The fuel supply is for 1,800 miles, this calculation also being based on the prevalence of calm.

The voyage is expected to take place next month. It is expected that from the moment the vessel leaves Spitzbergen she will be in constant communication by means of wireless telegraphy both with that port and Hammerfest in Norway. It is thus possible that Mr. Wellman may achieve the dramatic triumph of sending a wireless message from the Pole itself.

While the plan is to return from the pole to Spitzbergen the explorers are prepared, should the wind be unfavorable to that course, to follow the line of least resistance and cross the Arctic to Siberia, Greenland or Canada. All the governments of these countries have given Mr. Wellman the fullest information as to the location of tribes, games, supplies, etc. Canadians need therefore not be surprised if the news of the long coveted triumph of the Pole is first announced from Fort Churchill or some of the lonely Hudson Bay forts along the Coppermine. Should any disaster happen the airship, the expedition will resolve itself into a sleighing party, the intention being to draw four trailers by two motor sledges. The airship is operated by two motors, one of 55 and the other of 25 horse power. The more powerful will operate the forward screw, which is 18-1/2 feet in diameter, and will make 280 revolutions a minute. The rear screw is 14-1/2 feet in diameter, and will revolve 350 times a minute. It is not planned that the airship shall ascend higher than 500 feet.

Eight hundred pounds of food, enough for 75 days, will be carried. Five men—Mr. Wellman, a scientist and geographer, an aeronaut, a wireless telegraph operator, and a motor expert—will form the crew, and it is their hope to accomplish the conquest of the Pole and return in five days, if the wind is favorable, and in fifteen if the air currents are adverse.

### WILL CONTINUE THE AGITATION (Special to the Bulletin)

St. Petersburg, July 6.—In accordance with the decision of the peasant workmen's congress at Thelsingfors emissaries have been despatched throughout Russia to instruct peasant and proletarian organizations to continue their preparations for an armed uprising and to await the signal at St. Petersburg. A speaker discussing the efforts made in the British House of Commons to induce the Government of Great Britain not to send the fleet to Cronstadt says: "Whether the fleet come or not the sympathy of England and the English with the struggle of the Russian democracy for constitutional institutions is proven. The same is true of France. As regards Germany the sole supporter of the old regime in Russia, the Emperor still prefers to maintain the source of weakness of the Russian state in order to profit thereby. But Nicholas should remember the danger of outside interference."

**LIGHTHOUSE TENDER MISSING.**  
Washington, July 5.—The lighthouse tender Laurel has disappeared with her officers and crew according to word which reached the lighthouse board today. Two gunboats have been sent in search. The Laurel carried a crew of 23 men.

### BALL SCORES.

Winnipeg, July 6.—No. 1 northern, 81; No. 2, 78; No. 3, 76; No. 2 white, 35; No. 3 barley, 43; No. 1 flax, 107.

### Session is Nearing an End

Speaker Sutherland Will Open Winnipeg Fair

Ottawa, July 5.—J. Ross, superintendent of post offices will shortly visit Edmonton.  
Hon. R. F. Sutherland, speaker of the Commons, will open the Winnipeg Industrial fair on July 23.  
Some formal amendments were made to the immigration bill in the Senate and were passed by the Commons today and the bill finally adopted.  
Emmerson's railway bill dealing with telephones, express companies and railway crossings in cities, towns and villages was read a third time.

### POULTRY EXPERT GIVES ADVICE.

Mr. A. W. Foley, who has been engaged by the department of agriculture for the year 1906-7 will be 38 today. Mr. Foley was too late in arriving here for the fair.

In reply to a number of questions he said the poultry industry of the West needed encouragement and development as seen by the fact that last year over \$400,000 worth of eggs and poultry were taken into this western province, this province, was a seller at the \$1.15 worth of these products last year. He pointed out that with the rapid increase of population the market was as rapidly extending, and that the poultry industry could be made highly profitable in Alberta. All the conditions were in favor of such a development and plenty of rough grain. In fact Mr. Foley said there was probably enough grain wasted in the West to feed all the poultry required. What was needed was more intelligent care and suit of this industry and he recommended the use of the trap, and thereby one was able to find out exactly what each hen was doing. Foley cited a case where one hen laid 27 eggs a month, while another laid only 2. Besides the trap nest, the breeder to select the best layers and culls out the poor ones. A great many people do not realize that the egg was merely the substance of the hen, cats.  
Mr. Foley is in charge of the Dominion Breeding and Illustration Station at Bowmanville, Ontario.

### Physicians prescribe it.

Abbey's Salt is regularly ordered by physicians in place of Citrate of Magnesia, Seidlitz Powders, Epsom Salts, Liver Pills and Mineral Waters. The medical profession at large recognizes the fact that Abbey's Salt is not only the ideal laxative and cure for Constipation, but is also a perfect tonic to purify the blood—correct stomach, liver and kidney troubles—and invigorate the whole system.  
25c. and 60c. a bottle.

### There's ONE Furnace that can't waste fuel

Can't, because its grate-bars are triangular and hollow, its feed section gas-tight,—so it MUST burn enough AIR with the fuel to insure perfect combustion and no up-the-chimney-smoke-waste.

See the lengthwise corrugated walls in the fire-pot? That means long life for this furnace. See the one-way fire travel? That means quick use of the fuel's heat—burns any fuel!

**Oxford Furnace**  
Warm air

Fire doors big enough to take rough wood, big coal, cheap fuel does more in this furnace than hard coal in most. Look it over—'twill pay.

It burns fuel RIGHT—'tis easy to run—easy to buy—sure to save you money first and last. Come and look.

THE GURNEY FOUNDRY CO. LIMITED, Toronto—Hamilton—Montreal—Winnipeg—Vancouver. The Gurney Standard Metal Co., Limited, Calgary.

## First Rolling Stock For G. T. P.

Arrangements are being completed by the Grand Trunk Pacific Railway for the transportation of 289 cars, engines and steam shovels from Montreal to Portage La Prairie, the point at which the construction of the new transcontinental line commenced.

These cars and locomotives form Grand Trunk Pacific rolling stock and their movement to the west means the inauguration of advanced construction work.

An official of the company has been in Toronto for two or three days figuring on the different rates of competitive lines both in the United States and Canada for transporting this rolling stock to Portage La Prairie. The contract means an outlay of between \$18,000 and \$20,000 on the part of the Grand Trunk Pacific, so that the company is finding out the cheapest route to send them, whether through Canadian territory all the way or over a United States line to the border and then northward over a Canadian line. The contract will be let this week, it is announced.

The cars are of every kind used in railway construction in America. They include flat cars, box cars, cabooses, sleeping cars, dining cars, officers' cars, tool cars, vans and various other kinds of rolling stock, adapted to

railroad building. Steam shovels, engines and living cars for men are also amongst the rolling stock going out, and which bears Grand Trunk Pacific railway lettering and numbers.

When this stock reaches Portage La Prairie it will be placed in service at once, so that the construction necessary to the completion of the road which contractors have graded may be rushed.

Gangs of men and officers will work west from Portage La Prairie, putting in switches, semaphores, switch lights, telegraph poles, and wires, sidetracks, frogs and all the other equipment necessary to the road, and which has not been included in contractors' tenders.

The movement of this rolling stock is a significant fact in connection with the construction of Canada's new transcontinental road, marking as it does the beginning of the rolling stock operation on a railway which is to link the Atlantic and Pacific oceans.

By next fall the company expect to have enough road completed west of Portage La Prairie to allow the commencement of train services. This will only mean work trains for a while, but operation for commercial purposes will naturally soon follow.

## May Mean a Big Industry

Marl on Wabumun Reservation to be Offered for Lease by Indian Department.

J. A. Markle of Gilcheson, Inspector of Indian agencies who was in the city last week was here on business which may mean the establishment of a large industry within a few hours ride of Edmonton.

Mr. Markle's business was no less than making arrangements to offer for lease on a royalty basis the marl deposits known to exist on the Wabumun or White Whale Lake reservation for the purpose of manufacturing cement. It is known that a Montreal firm with local representatives have been negotiating for some time for the purchase of the deposits but the deal was changed over to a lease. The Indians have consented to a twenty-five year lease, at the rate of 25 cents a ton and a bounty down of \$1,000 and it is understood that the property is to be offered at that price to whoever will undertake the establishment of the industry.

The marl lat White Whale Lake has long been known to exist and the value of the deposits have always been recognized. The sand and other ingredients necessary for the manufacture of a good grade of cement are close at hand and everything favorable to the establishment of the industry. Heretofore, however, the lack of railway transportation has made such a thing impossible. With the construction of the Canadian Northern to White Whale Lake, transportation facilities will be afforded. The road skirts the north side of the lake and while the deposits are on the south side a spur three or four miles long would reach them. The deposits are understood to be extensive and to contain the chemical constituents for the manufacture of cement.

**CANADIAN NATIONALITY** (William Briggs, Toronto, Ontario.) Price 75 cents. This book of 230 pages is well bound in cloth, printed on good paper, written by W. Frank Hatheway, St. John, N.B., Canada. These Essays on Nature, Reverence, Culture, Education, and National Life, are the first attempt in book form, in this country, to stimulate the youth to higher ideals. The reader is transported to foaming cascade, and mountain lake, to the whisperings of British Columbia pines, and to the undulating folds that veil Montmorency. There he feels the influence of forest and river, and no longer yearns for the blue Mediterranean of the banks of the Nile.

The author sees also into the heart of both nature and man, as shown in the essay "Cry of Labor," as well as in "Real and Ideal."

He says in the introduction: "I offer this volume of Essays, and ask the makers of wealth, viz., that large proportion of Canada's population which works in field, forest, factory, mines, fisheries, and on transportation lines to realize that upon their intelligence and their educated skill, the people should urge on the 'ty.' In order to have such educated skill, the people should urge upon the Government the need of well-equipped technical schools, to enable our mechanics and farmers to compete in Great Britain against the skilled workers of the United States and Germany. I also ask that other influential but small class, the professions, the officials, and also the traders, to bear in mind that they are non-producers and only exist as the outcome of the wealth created by the workers. Therefore, it is in the interests of the whole people that all

these workers be well paid for their labor. The pleasure I have had in writing these Essays has been increased by the hope that they might tend to develop a higher national character so that the word 'Canadian' will mean an educated intelligence that sees both the beautiful and the useful in Nature, that has an abiding faith in the Creator and a deep love and reverence for the land in which we live.

"The various Germanic principalities and kingdoms along the Rhine and Elbe were an easy prey to Napoleon's ambition until the Teutonic, with a deep religious enthusiasm and a patriotic stirred those fires which finally evolved those statesmen of 1866, and united all Germany in 1870. Likewise the centrifugal fractions of sunny Italy, mid-land love for Prussia and Queen Louise, murder, rapine and jealousy, were at last controlled and brought to a common centre by the religious zeal of Mazzini, the patriotism of Garibaldi and the sagacity of Cavour. Religion, simply a love and trust in the Creator—patriotism, an appreciation of our natural surroundings, and a reverence for our citizenship—these two are to make Canadian nationality. My aim is to sound these dominant tones, and thus to make Canadians feel the responsibility of their citizenship. We must no longer speak of New Brunswick, Nova Scotia, Ontario and Manitoba. It is not upper and lower Canada. We are one country, Canada. We are one nationality. Canada. It is this pride of nationality we must cultivate, so that all race and creed differences will gradually disappear, as we flower into that splendid Canadian character to which I feel this country is steadily tending.

"In conclusion let me say that if any reader is stimulated by these Essays to a higher conception of citizenship, the merit is to be ascribed largely to the influence of Ralph Waldo Emerson, in whose thought I find the broadest humanity, the greatest reverence and the deepest sympathy."

## WILL LOOK FOR DIAMOND MINES

Winnipeg, Man., July 6—Several months ago when prospectors around the Rainy Lake district reported the finding of diamonds they were not believed and the stones they exhibited were said to have been purchased for the purpose of making their tale sound more plausible. During the past few weeks, however, three parties of prospectors have left for the north with the intention of discovering the diamond bed from which these stones are said to have originated and a curious feature of these prospecting parties is that they are made up entirely of Americans, several of whom claim to have definite information as to the location of these diamond fields. Last year a French-Canadian sold a brilliant to an Englishman in the Rainy River district for 80 cents worth of drinks. The buyer obtained \$1,400 for it. Where that diamond came from there must be others. Remember the story of the first diamond found in South Africa, it lay for days kicking around on the kitchen floor in a farm house until a man came along and bought it for a trifle. He made several hundred pounds by the deal and the parties to whom he sold it made thousands. The finding of that solitary diamond led to the location of the famous Kimberley mines where millions of dollars' worth of these precious stones have been discovered and are being discovered every year. Remember the story of the discovery of gold at Coloma, California by Wilmer and Marshall, while they were digging a mill race, that led to the famous rush of 1849. Remember the escaped convict in Australia, who, nearly starved, returned to the prison from which he escaped bringing with him a nugget of

gold and offered to tell where it was found on condition of his pardon, which offer was accepted. Remember the discovery of gold on Thompson river, British Columbia which led to the Fraser river rush in 1859, by two trappers, one of whom killed his partner in a fight and escaped to Tacoma where he was afterwards shot by a vigilance committee. Remember all these little instances which led to the discovery of great mineral wealth and who can say that the discovery of several diamonds in the Rainy River district may not lead to the discovery of diamond fields which will rival the famous Kimberley mines. Already an agent of the Rothschilds has arrived, ever ready to get in on the ground floor should any discovery be made. With several railways building through the district there will be every chance for its mineral wealth to become known.

## PHENOMENAL CROP FOR NORTHWEST

Winnipeg, Man., July 6—Reports from various portions of Canada's wheat belt show better prospects each week, in fact the climatic conditions have been ideal from the day spring opened. "Crop prospects in the Northwest could not be better up to the present time," says S. P. Clark, of the Northern Elevator Co. "The wheat is heading out in many sections and about the only trouble we may look for now is that the grain is apt to lodge as it is so heavy. All indications point to a record crop this season. We had the proper conditions when the grain was put in and it just remains to have ordinary weather until August 20 to have an old time crop of No. 1 and No. 2 Northern. In the two new provinces the prospects are exceptionally fine and they will soon surpass Manitoba in both quantity and quality."

## YUKON OUTPUT FOR 1906.

Dawson City, July 6—All authorities agree that the Yukon output for the present year will beat all records for the camp and many are of the opinion it will amount to \$25,000,000 worth of gold. Latest advice from the outlying camps show that the season so far has been a most favorable one and the clean-ups are realizing far more than was expected. Another reason for the great increase in the output is the adoption of the cyanide process and a large company is now being formed to work the tailings which the miners have been throwing away for years under the impression it is worthless but tests which have been made show these tailings contain \$5 per ton in gold and upwards and can be worked with a good profit by the cyanide process by which means a very large amount of gravel can be handled daily at a small cost.

## BROKE THE RECORD.

Regina, Sask., July 3—The home-stead entries at Regina lands office for June again broke all previous records not only of Regina office, but of all land offices. The entries last month totalled 1,790 as compared with 1,305 for June last year, an increase of 491. This is the largest number of entries for a single month ever recorded at any one land office.

## ANOTHER IRRIGATION PROJECT.

Ottawa, July 3—The Robbins Irrigation company, an English syndicate, is undertaking an extensive project in a district west and south of Medicine Hat, which contemplates the irrigation and improvement of upwards of 300,000 acres on the Bow and Belly rivers, lying between the C.P.R. main line and the Crow's Nest Pass railway. The company has entered into a contract to expend a minimum of \$1,000,000 on the project and expects that its outlay on improvements and works will run to \$1,500,000. Outside of certain factories which the company will establish in the city of Medicine Hat, the scheme contemplates the settlement of a tract of land with American and Canadian settlers who have experience in the working of irrigated lands. The company will establish a canning factory and sugar beet factory.

## THUG KILLS AN OLD MAN.

Melrose, July 5—Frank Bonsall, 30 years old, prize fighter, struck and killed Michael O'Connor, 70 years of age. O'Connor was a farmer. Bonsall has been here nine months and has participated in several prize fights. The men had been drinking and Bonsall became angry at some remark of the old man and struck him a terrific blow. O'Connor fell to the floor and expired instantly.

## ANOTHER FLAG INCIDENT.

Winnipeg, July 6—The Canadian Club today commenced an investigation on the hoisting of the stars and stripes on the city hall on July 4.

## HARVEST BEGINS IN JULY.

Winnipeg, July 5—Wheat harvest in Manitoba will begin in July. That is the announcement that will be contained in this week's crop bulletin of the Canadian Northern. Reports sent in by the company's agents are of the most favorable nature. The crops are

## PONIES WILL HAVE A RACE

Winnipeg, July 5—The horses which have been racing on the Manitoba circuit will have an off season for a couple of weeks and then will make their next appearance at Reg. on fair on July 17 and 18. After this meeting most of the harness men will ship their strings south to the Great Northern circuit, and it is not likely that many of them will race at the Winnipeg exhibition breaking in on the Great Northern circuit at Fargo which runs concurrently with the Winnipeg fair.

## BELGIUM WN FROM TRINITY HALL

Henley, Eng., July 5—The Belgium eight defeated Trinity Hall by three lengths. Time 7.09.

## QUEENS BUILDING DAMAGED

Kingston, Ont., July 4—The medical building at Queen's University was gutted by fire, the property was valued at \$75,000, partly covered by insurance.

## Canadian Pacific Railway

## The Plain Truth About Twenty-seven Automobiles

What about an Auto at such Prices as These? HERE is a terse, plain, honest description of 27 automobiles. Any one is great big value for the price. Every one is a good make, in good running order --- most of them are actually in first-rate new condition. Consider that a modern motor car --- and every one of these is a modern motor car --- is as easy to run as it is to drive a horse --- and actually safer than most horses --- and actually less expensive to keep, as well as being instantly ready for use when you want to use it.

Look over the List --- consider which car you might possibly be interested in if it is all we say it is. Check on the coupon the number of such cars as might interest you; write your name and address plainly on the coupon and mail it to us. We will send you pictures, full details and special terms. Every car in this list --- every car we sell --- we warrant in all respects fit to buy and as we represent it.

## The Biggest Bargain of the Whole List is This No. 1

- No. 1—Rambler Touring Car. 1905 Model, 18 h.p., double opposed cylinders. Car seats five with comfort. Side entrance, tonneau (same as newest high-priced cars). Complete with acetylene gas generator and searchlights, side and tail lamps, horn, etc., etc. First-class condition. Same style sold last year for \$1,750. Price to quick buyer at..... \$1,000
- No. 2—Packard, 4-cylinder car, 1905 model, with plate glass windshield, cape car top, and everything complete, for a first-class high-grade touring car. Will seat five people comfortably. Fitted with Diamond tires in fine condition, as is indeed the whole car. Body beautifully finished in rich, dark green; price includes acetylene gas outfit and five high-grade lamps, side baskets and, in fact, everything that ought to go with a car as good as this. Absolutely as good a purchase as any automobile buyer can possibly consider. Really worth fully \$900 more than our price, which is..... \$3,000
- No. 3—Packard 4-cylinder car, Model "L." With canopy top and side baskets. Good tires throughout and one extra tire. Is..... \$2,200
- No. 4—Haynes 1905 Runabout, 18 h.p., folding front seat, leather hood, 4 in. high grade tires. A splendid car for physician's use. Big value..... \$1,300
- No. 5—Russell Model A Touring Car, complete with top, searchlights, lamps, etc. Car seats five, and is fitted with all 1906 improvements—a strictly up-to-date machine in practically new condition and a special snap at..... \$1,125
- No. 6—Russell Model A, with all 1906 improvements especially fitted to 12 h.p. Double opposed cylinders, no vibration. Shaft drive. Sliding gear transmission. 3 speeds and reverse. Strictly up-to-date. Will climb any hill. Quite worth \$1,300. To a quick buyer price is..... \$1,000
- No. 7—Rissell 1905 Car 12 h.p. Shaft drive and sliding gear transmission. A fine car. Used but little during one season..... \$1,000
- No. 8—Rambler 1905 Touring Car. 18 h.p. Extra large tonneau. Fitted with searchlights, lamps, etc. In fine condition..... \$1,000
- No. 9—Tops Hartford Light Touring Car 1905 Model, 10 H.P. Seats four. Has never been used. Absolutely beautiful car at any price and notable value at our price..... \$850
- No. 10—Stevens Duryea Runabout with folding front seat, full leather top. Good car for physician's use. Condition first-rate. Excellent value..... \$800
- No. 11—Autocar—12 H.P. Touring Car. Engines up-to-date—placed in front. Sliding gear transmission. 3 speeds and reverse. This car is in good condition and is a sound investment at the special price of..... \$725
- No. 12—Knox Runabout, 8 H.P. Air-cooled engine. New condition. Big bargain for..... \$625
- No. 13—Rambler, 16 H.P. Touring car. Side baskets—a good model in good condition. A bargain at..... \$600

### Wetaskiwin to the Cleaners

Cubs Fed Honey all Week and Shear at the Finish—Mr. Howard

Pitches Ball

It was to the woods for fair with the cubs last night. After feeding the Wetaskiwin bunch honey all week and throwing in a big fill about what nice folks they were, the Edmonton bunch turned on them last night like a band of hungry wolves and tore them loose from their collared and their fanned, leaving the young bears a wreck to limp home on three legs and tell the story in their own camp of how cruelly they were treated and humiliated. It was a blooded, but as sympathy has no place in baseball it was a la mode.

Possibly where Wetaskiwin made their mistake was to allow Miquelon to go home yesterday morning and leave the cubs to take care of themselves. Miquelon should never let the cubs run loose without a guardian. Either that or have them caged and chained. However, that is philosophy and has nothing to do with the story. The main feature of the game was the close of six games Edmonton winds up with all the loose specie that was speculated on future at any stage of the game, and the best team. It worked out by a process of adhesion and cohesion. When Wetaskiwin played Strathcona the latter bunch made a few financial ventures and Wetaskiwin covered the net, while Edmonton took the over. When Calgary played Wetaskiwin the same thing happened again. Wetaskiwin called what they could and Edmonton took the rest. Then in the finals Edmonton sized up what they had taken from the other two against what Wetaskiwin has taken and—well, 7 to 2; that was all.

Mr. Howard performed on the slab last night and was in his usual good form. He only struck out four men, but he held the cubs down to five hits, all singles. His support was fairly good and the team are doing better with the willow than heretofore. Yeazell, the new man from the coast, appeared on the initial sack last night for the first time. Yeazell played first with Billy Hulen's Everett bunch when they won the pennant last year in the Northwestern League and had not the 'Frisco trembler shaken up the ball business pretty badly on the coast, would probably be playing in those parts now.

Incidentally it might be mentioned that Alberta at present has several ball players who have made good in minor leagues. Calgary has Donovan, who played with John McCloskey last year, Ford, who played with Victoria, Joe Mahaffey, who played in the Three I. League and one or two others, while Edmonton has Bradley, who played with Winnipeg, and Yeazell. The people of Alberta are getting pretty good ball at the present time.

But to revert. Stokes did not pitch as good a game as his confrere, Pittman, is capable of, and that, with poor support at the physical moment, lost the cubs the game. Berry, who went over to Wetaskiwin yesterday and will make the infant city his home, played third for them last night and put up a very nice game, notwithstanding that some of the Edmontonians undertook to give him a narrow gauge road for charity geography. The game was not distinguished by any characteristics that would send it rattling down through the ages as a

lesson to posterity. It was just ordinary ball and one or two places in it were so bad that they might have created suspicion in a packing house. The game was called in the seventh on account of darkness, which should be a lesson to the management to commence on time hereafter. Edmonton scored in the third, when Howard reached first on Martina's bad throw from second, and worked around on hits by Deaton and Bradley which the cubs also failed to handle.

In the fourth the cubs went up in the air altogether and dangled on the end of their chain until the close of the fifth, during which time six more runs were scored against them. Yeazell came to bat first in the fourth and hit safe. Nutt followed and crowded him out at second on fielder's choice; Howard went down pitcher to first; Deaton hit safe and advanced Nutt to third, although he should have reached home. Then Bradley slammed out a three bagger, and when the ball was returned to headquarters from left Stokes gave him a clear run for home by skyrocketing it over Jerry's head. Gleason fanned and retired the side.

In the sixth Dobson flew to centre, Allen got first on another error by Martina, and third by an error by centre, the ball going right through the field. Vining hit a hot one to Dahl which the boy with the fat slats failed to handle. Yeazell followed with a safe hit on which Allen scored and Vining reached third. Nutt, hit by pitcher, reached first, filling the plate. Howard forced to pitcher and Vining was cut off at the plate, then Deaton pounded out the needed one, bringing Yeazell and Nutt across the elastic. Bradley went down third to first. This was all the scoring for Edmonton.

Wetaskiwin scored one in the sixth. Walcott hit, Berry sacrificed, Gouche hit and brought Walcott in, but went out trying to steal second. Dahl disturbed the ozone and retired the side. In the seventh Wetaskiwin scored again. L.L. Murray got a pass, Barrett failed to negotiate, S. Murray bunted and went out and Stokes hit safe, bringing in the run. Martin failed to reach the primary sack, putting the side in the pasture again.

Edmonton went out one, two, three in the next, and the umpire called for curtain. Score seven to two.

Summary—Barry's run, by Wetaskiwin 1; by Edmonton 3. Three-base hits, Bradley, struck out by Stokes, 8; by Howard, 4; bases on balls, off Howard, 1; off Walcott, 1. Hit by pitched ball, Nutt. Sacrifice hits, Walcott, Dobson. Stolen bases, Nutt. Umpire, Garretson. Time 1:55. Attendance 1,000.

## Casey at the Bat

It looked extremely rocky for the Mudville nine that day. The score stood two to four, with but an inning left to play. So, when Coney died at second, and Burrows did the same, a pallor wreathed the features of the patrons of the game.

A straggling few got up to go, leaving there the rest. With that hope which springs eternal within the human breast, For they thought: "If only Casey could get a whack at that," They'd put up even money now, with Casey at the bat.

But Flynn preceded Casey, and likewise so did Blake. And the former was a pud'n, and the latter was a fake, So on that stricken multitude a deathlike silence sat, For there seemed but little chance of Casey's getting to the bat.

But Flynn let drive a "single," to the wonderment of all, And the much-despised Blakey "tore the cover off the ball." And when the dust had lifted, and they saw what had occurred, There was Blakey safe at second, and Flynn a-huggin' third.

Then, from the gladdened multitude went up a joyous yell, It rumbled in the mountain-tops, it rattled in the dell; It struck upon the hillside and rebounded on the flat; For Casey, mighty Casey, was advancing to the bat.

There was ease in Casey's manner as he stepped into his place; There was pride in Casey's bearing, and a smile on Casey's face. And when, responding to the cheers, he lightly doffed his hat, No stranger in the crowd could doubt 'twas Casey at the bat.

Ten thousand eyes were on him as he rubbed his hands with dirt, Five thousand tongues applauded when he wiped them on his shirt; Then while the New York pitcher ground the ball into his hip, Defiance gleamed in Casey's eye, a sneer curled Casey's lip.

And now the leather-covered sphere came hurtling through the air, And Casey stood a-watching it in haughty grandeur there. Close by the sturdy batsman the ball unheeded sped—"That ain't my style," said Casey. "Strike one," the umpire said.

From the benches, black with people, there went up a muffled roar, Like the beating of storm waves on a stern and distant shore. "Kill him! Kill the umpire!" shouted some one on the stand. And it's likely they'd have killed him had not Casey raised a hand.

With a smile of Christian charity great Casey's visage shone; He stilled the rising tumult; he bade the game go on; He signaled to Sir Timothy, once more the spheroid flew; But Casey still ignored it, and the umpire said, "Strike two."

"Fraud!" cried the maddened thousands, and echo answered "Fraud!" But one scornful look from Casey and the audience was awed. They saw his face grow stern and cold, they saw his muscles strain, And they knew that Casey wouldn't let that ball go by again.

The sneer is gone from Casey's lip, his teeth are clenched in hate; He pounds with cruel violence his bat upon the plate. And now the pitcher holds the ball and now he lets it go, And now the air is shattered by the force of Casey's blow.

Oh, somewhere in this favored land the sun is shining bright; The band is playing somewhere, and somewhere hearts are light; And somewhere men are laughing, and somewhere children shout; But there is no joy in Mudville—mighty Casey has struck out.

## THE BIG STORE THE ART SHOE

The Best at any Price  
Have You Tried It? If Not, Why Not?

Not only do you get your money's worth of shoe leather, but you also get exclusive style, fit, finish and solid shoe comfort. These, together with the fact of excellent wearing qualities, has made this shoe a favorite with every lady who has worn it.
